

# JHAG CHILDREN'S VILLAGE

## prem pathshala - school house

During October, developments continued to further complete and establish the school.

150 enrolled students now have the use of a functioning library and computer room. A generous donor provided funding for school shoes and socks which were distributed to all students.

The children's natural creative flair was harnessed by two visiting volunteer teachers from Singapore who arranged the painting of a mural on the internal walls of the school. The result is bright and happy, a reflection of the bright and happy atmosphere of our beautiful new school.
