

JHAG CHILDREN'S VILLAGE

prem pathshala - school house

The disadvantaged children who reside in the Jhag Children's Village shelter home and the poor local village children who are enrolled as day students in Prem Pathshala are now being offered all the advantages of school life.

This month, the children received an issue of the school's summer uniform, as well as books and book bags. Playground equipment including swings, seesaws and a slippery dip were installed to their great delight. Investigations into the purchase of furniture and equipment for the computer room and the library commenced.

Low lying areas surrounding the school were identified and filled. A generator was purchased and installed to provide for the electricity needs of the Jhag Children's Village during the frequent power outages. It is a large capacity generator that will serve both the school and the shelter home.
